

Toddobaadkiiba hal mar ayaan gurigaaga qashinka ka soo qaadaynaa. Kalandarka ayaad ka arkaysaa toddobaadka qashinka aan qaadayno. Qashinka afar nooc ayaa loo kala qaybiyaa. Qashin haraa ah, biraha iyo dhalooyinka alaabaha lagu rito, warqad/baakad/kaartoonka cabbitaanka iyo balaastigga guryaha lagu isticmaalo. Balaastigga guryaha lagu isticmaalo waxaa lagu keenayaa bac gaar ah oo geeska jaallaha ah laga surayo tanagga loogu tala galay warqadaha/baakadaha/kartoonnada cabbitaanka.

In qashinka la kala sooco waa muhiim si aad boos ugu hesho qashinka haraaga ah. Qashinka aan tanagyada ku jirin la qaadi maayo. Maalinta aan qashinka qaadayno waa in tanagyada qashinka la dhigaa meel ugu badnaan 5 mitir u jirta meesha uu gaariga qashinku istaago. Waa in barafka la xaaqaa si ay qofka qashinka qaadaya ugu fududaato in uu tanagga qaado. Haddii ay meeshu sibibix tahay waa in lagu shubaa wax sibibixa ka baabbi'iya.

Qalabkan ayaa loo baahan yahay in uu qof walba haysto. Santuukha guduudan waxaad ku aruurinaysaa qashinka khatarta ah ee kala duwan sida batariga, riinjiga, guluubyada iyo waxyaalaha yaryar ee elektaroonigga ah. Marka uu santuukhu buuxsamo ayaad gaynaysaa goobta qashinka la geeyo ee kuugu dhow. Nala soo xiriir haddii aadan haysan qaar qalabkaan ka mid ah.

Dhammaan noocyada kale ee qashinka ah waxaa bilaash lagu geyn karaa goobta qashinka ee kuugu dhow. Kuwaan waxaa tusaale ahaan ka mid ah saabaanka, baakad weyn oo kuwa wax lagu duubo ah, biraha, qalabka elektaroonigga ah, qashinka dhismaha, qashinka ardaagga guriga iwm. Iyo qashinka khatarta ah sida riinjiga, batariga, guluubyada iwm.
