Slik bygger du et avfallshus

Napp ut!

Tips:

- Du kan bygge med tett vegg på tre sider dersom det passer bedre hos deg.
- Unngå porter på avfallshuset
- Pass på at avfallshuset står lett tilgjengelig og ikke mer enn 5 meter fra veien
- Drener godt rundt avfalls-huset slik at det ikke blir søle-dammer foran inngangen
- Plasser huset slik at det ikke blir store snøkan-ter foran huset
